

REMARKS/ARGUMENTS

These Remarks are responsive to the Notice to File Missing Parts mailed September 3, 2003 (the "NFMP").

The above amendments to the specification have been made to correct various typographical or otherwise minor errors identified in the NFMP. More particularly, the NFMP identified potentially inaccurate drawings for failing to include Figures 4a and 4b as initially referenced in the specification. Contrarily, it has been subsequently determined that the drawings as filed are correct and that the initial description of the drawings supplied in the section of the application entitled "Brief Description of the Drawings" was inaccurate. Accordingly, this section of the specification has been amended to provide a concise description of the drawings initially filed with the application and described therein. Due to the explanatory nature of the above amendments, no new matter is believed to be submitted.

CONCLUSION

Applicants respectfully submit that the application, as amended, is in condition for allowance. If the Examiner believes that prosecution might be advanced by discussing the application with Applicants' counsel, in person or over the telephone, we would welcome the opportunity to do so. It is believed that no fees are due with this response. However, in the event any fees are due, the Commissioner is hereby authorized to charge the undersigned's Deposit Account No. 50-0206.

Respectfully submitted,

HUNTON & WILLIAMS
